PROFESSIONAL EXPERIENCE

Localization Manager (part-time)

12/2018 - 12/2019

BRD crypto wallet app

San Francisco, CA

- Coordinating development, product and translators teams for timely delivery of the application content and its translation.
- Managing 2 teams of translators, working with 12 languages.
- Quality assurance and publishing of translated content for Android and iOS applications. Maintaining GitHub repository and localization glossary to optimize delivery time and translators workload and ensure consistent terminology across the application.

11/2017 – 12/2018 While unable to work due to visa status, put my time and effort into expanding my knowledge of UX and UI design, improved my HTML and CSS coding skills, designed and developed the interface for Ukrainian music web portal (<http://rock.kiev.ua>).

Project management consultant

05/2017 – 10/2017

Bit Studios

Boston, MA

- Oversaw a distributed teams of designers and developers, working on cloud based project management tool, built with Go and JavaScript.
- Streamlined and sustained efficient workflow and communication to ensure collaboration between stakeholders and continuous improvements to product and process.
- Established UX and UI design practices, from research to wireframing and hi-fi mockups to assist front-end development teams and to provide sleek and intuitive interfaces to end-users.

Technical Project Manager

04/2016 – 03/2017

Eastern Bank (Eastern Labs)

Boston, MA

- Coordinated product, design and development teams working on new web and mobile banking applications. Translated business requirements into actionable tasks.
- Led Scrum Sprint planning, retrospectives and daily standups.
- Collaborated with QA engineers on application testing process organization and test scripts preparation. Assisted in manual testing for web and mobile applications.
- Modified and streamlined user acceptance and user experience testing. Analyzed outcomes, user feedback and prioritized future development and improvements.

02/2015 - 02/2016 Took a break to attend to family matters. Relocated to Boston, MA and while waiting for my employment authorization, explored local startup scene and did pro-bono consultation on project management and Agile development process for Boston-based startup Agora.co.

Project manager, team leader

07/2009 – 01/2015

R&R Music Ltd.

Kyiv, Ukraine

- Implemented Agile project management methodologies in the company. Improved workflow and communications between company's offices and departments.
- Contributed to the development of user interfaces and visual style for company's web and mobile applications.
- Facilitated a development team and delivered API solution for the company's core technology (music analysis and recommendations) that optimized a workload for other project teams and let them focus more on their product specifics.
- Got promoted to project team leader, hired, trained and supervised a team of 7 project managers. Assisted in onboarding of new employees. Taught and mentored a group of project management interns.

EDUCATION AND CERTIFICATIONS

- Full Stack Web Developer certificate from Berkeley Coding Boot Camp.
- Scrum Product Owner Certification.

09/2003 – 06/2008 Bachelor of Arts, Linguistics (Arabic and English language), Kyiv University "Oriental World", Kyiv, Ukraine

Languages: Ukrainian (native), Russian (native), English (fluent).

Visa status: Green Card.
